To Auckland Council: We the undersigned request:

That you take into account the concerns of the residents of Donnelly Street and other affected residents in the area about the planned development by St Johns Park Investments Ltd bordering Donnelly St, Norman Lesser Drive and Ngahue Drive St Johns. In particular we note that Donnelly Street is narrow, it already has limited off street parking for residents and can only take parking on one side of the road. The current plan for the development shows 17 additional vehicle crossings to connect to Donnelly Street which we feel strongly would be overwhelming and that the street cannot handle this magnitude of traffic. In addition, access to Ngahue Drive from Donnelly Street will be heavily impacted as there is already traffic congestion at this intersection.

We further request that the development be publicly notified using Councils' general discretion under the RMA, or by using the special circumstances provisions to do so, in order to give residents the opportunity to be involved in the approval process.
